

# Neighbourhood Development Plan Open Information Event

## Draft NDP Vision Statement

## Upton Bishop - How do others see us?

### Upton Bishop Parish Plan 2004 Vision:

- *A strong, engaged community that values individuals, respects diversity, sustains young families and has regard to the elderly and those in need.*
- *A community able to adapt and embrace new ideas by strengthening the groups and activities that enrich our parish life*
- *A community that protects our communal buildings and is active in safeguarding the natural beauty of our environment and our rich heritage.*

Do you support this Vision?

Does it need to change or evolve?

If there is anything you would like to add or change please tell us by using a post-it note with your views

We have drafted some ideas to support the Vision Statement but we need your thoughts and views:-

## Environment and Heritage

***Our community will continue to be a place where people can enjoy living and working in a rural setting. The rural character of our parish will be protected and, where possible enhanced, whilst accommodating managed growth which meets the needs***

***“To protect and maintain the natural and historic environment of the parish, in particular its designated areas, sites and buildings; and its landscape character. especially views and vistas, ensuring access to these through the public footpath network.”***

## Housing

***“To provide a range and choice of new homes, sensitively located and to meet the needs of all sections of the community. These homes should be built at a scale and density designed to respect and enhance the character of the parish.”***

## Economic Development and Employment

***“To support and encourage the development or expansion of small and home-based businesses in addition to traditional farming.”***

## Community Services and Facilities

***“To ensure that community facilities are retained and enhanced as much as possible, and community spirit and involvement is actively encouraged.”***

## Infrastructure and Roads

***“To support the provision of improved infrastructure, in particular roads/pavements; public transport; the sewerage system; surface water drainage; mobile and broadband. Infrastructure to reduce carbon dependence will also be encouraged through seeking appropriate alternative energy methods.***

**Do you support these Objectives?**

**Is there anything you would like to add or change?**

**How do we attract new residents that will help us grow?**
